

Automatic Detection and Segmentation of Brain Tumor Using Random Forest Approach

Leonard Brenk

October 28, 2020

Contents

1	Intention	3
2	Introduction to ensemble learning methods	3
2.1	Binary Decision Tree	3
2.1.1	Basics	3
2.1.2	Training	3
2.1.3	Testing	3
2.2	Bagging	3
2.3	Random Forest	3
3	Introduction to the Paper	3
3.1	Author, topic, release	3
3.2	Motivation	3
3.3	BRATS Data Set	3
3.4	Data Processing	3
4	Random Forest in Brain MRI	3
4.1	Training Trees	3
4.2	Post Processing	3
5	Results	3
5.1	Sample Size	3
5.2	Effects of post-processing	3
5.3	Segmentation	3
6	Sources	3
